

Name of Seminar: Sprinkler System Installation Requirements

Date of Seminar: Saturday, April 23, 2016

Location: Local 550 Education Center
195 Libbey Industrial Parkway
Weymouth, MA 02188

Instructor: Maurice Pilette

Seminar Description: There are hundreds of types of sprinklers in use today. Determining where to locate them can be a complex task. They need to be spaced properly and installed in specific locations to ensure coverage of the protected area and also located far enough away from obstructions to ensure that the spray pattern can adequately develop and control or suppress a fire. The rules that govern this complex matrix of decisions are found in Chapter 8 or NFPA 13 on Installation Requirements. This fast paced and interactive seminar will guide the participant through a series of decisions and requirements that lead to compliance with NFPA *IT* and ensure that the system will operate properly when needed.

Duration: One Day

Number of Modules: 5

Total Instructional Contact Minutes: 390 Minutes (0.7 CEUs and 7 CPD)

Space is limited. To reserve your place in the class, please mail a check for \$25.00 payable to Local 550 JAC and please write in the memo section: **NFPA Class 4/23/2016**. Please note that you will receive a full refund upon completion of the class.

Fraternally yours,
